

KEY SERVICES:

# FALL PROTECTION TRAINING

## TRAINING COURSES

LJB offers fall protection training courses spanning a variety of needs, listed below. Our proprietary training assessment tool can also gauge the knowledge of your workers to help tailor the appropriate course for your staff.

- › AWARENESS
- › AUTHORIZED PERSON
- › COMPETENT PERSON
- › QUALIFIED PERSON
- › REFRESHER TRAINING PROGRAMS
- › SYSTEM-SPECIFIC TRAINING

LJB's customized fall protection training courses provide participants with the skills and tools to solve their own fall protection issues before they arise.

Many years ago, LJB recognized a need for training that went beyond regulation-based workshops and manufacturers' courses focused on personal protective equipment. Today, the goal of LJB's fall protection training is to provide you with the knowledge to solve your fall protection issues before they arise.

In addition to the tools needed to identify fall hazards, LJB's training provides participants with the insights and skills to develop and implement their own comprehensive and cost-effective fall hazard control program. LJB's customized training programs use a variety of relevant case studies and hands-on exercises to make our training effective for anyone who develops or impacts fall protection programs.

## WHO WE SERVE

LJB's fall protection training courses benefit anyone who develops or impacts fall protection policy, as well as those involved with design practices, facility or production modifications, and equipment procurement.

- › SAFETY DIRECTORS
- › SAFETY PROFESSIONALS
- › MANAGERS
- › FACILITY ENGINEERS
- › MAINTENANCE SUPERVISORS
- › PRODUCTION SUPERVISORS
